In the reference read above, the Engineer-in- Chief (Irr) has submitted that Musi Project was constructed in the year 1963 and designed with a live storage of 4.6 TMC to extend the irrigation facility to 41,800 acres through left flank and right flank canal covering 42 villages in six mandals of Nalgonda district. The project is having 12 Nos of crest gates with size 12.19 m X 6.10 m , all the gates are heavily rusted and at many places gates are damaged due to heavy rust.
